Proceedings of the 8th International Congress on Invertebrate Reproduction Amsterdam, 10–14 August 1998

Contents

Plenary lectures

1 Fundamental knowledge about insect reproduction: essential to develop sustainable pest management
J.C. Van Lenteren

17 Cellular and molecular aspects of metal sequestration and toxicity in earthworms
A.J. Morgan, S.R. Stürzenbaum, C. Winters and P. Kille

25 Reproductive strategies and energetic adaptions of polar zooplankton
W. Hagen

35 Sexual adaptations to high density in hermaphrodites
N.K. Michiels

41 Maternal information and localized maternal mRNAs in eggs and early embryos of the ascidian *Halocynthia roretzi*
H. Nishida and K.W. Makabe

51 Life history shifts and alterations in the early development of parasitic wasps
M.R. Strand and M. Grbic

57 A phylogenetic interpretation of nematode vulval variations
R.J. Sommer, C.B. Sigrist, K. Grandien, B. Jungblut, A. Eizinger, H. Adamis and I. Schlak

67 Chemical signals affecting mosquito behaviour
W. Takken

Mass breeding in invertebrates

73 Assessment of female gamete quality in the Pacific oyster *Crassostrea gigas*
M.E. Valdez Ramirez, M. Le Pennec, G. Dorange, N. Devauchelle and G. Nonnotte

79 Methyl farnesoate induced ovarian maturation in the spider crab, *Libinia emarginata*
Q.-T. Jo, H. Laufer, W.J. Biggers and H.S. Kang

Developmental patterns

87 Growth pattern of isolated prawns of *Macrobrachium borellii* (Crustacea, Decapoda Palaemonidae)
P. Collins and A. Petriella

93 Embryonic development and endosymbiont transmission mode in the symbiotic clam *Lucinoma aequizonata* (Bivalvia: Lucinidae)
O. Gros, M.R. Duplessis and H. Felbeck

105 Regulation of development of the grain beetle *Tenebrio molitor* by neuropeptides
I.M. Sheiman, E.F. Balobanova and N.D. Kreshchenko

111 Serotonin-like immunoreactivity in the brachiolaria larvae of *Patiriella regularis*
F. Chee and M. Byrne

117 The developmental morphology of the spermatophore of *Gryllus bimaculatus*
M.D. Hall, R.Beck and M. Greenwood

Hermaphroditism

123 An *in vivo* electrophysiological study of mating behaviour in the snail *Helix aspersa*
J.M. Koene, R.F. Jansen, A. Ter Maat and R. Chase

129 Modern Portfolio Theory and the prudent hermaphrodite
J.L. Leonard

137 Copulatory process in *Oxychilus* (*Drouetia*) *atlanticus* (Morelet and Drouët, 1857) (Pulmonata: Zonitidae)
A.S. Rodrigues and B.J. Gómez

Reproductive strategies

141 Elements of reproductive strategy in oysters, *Crassostrea gigas*, from the "Rade de Brest", France
F. Lango-Reynoso, N. Devauchelle, M. Le Pennec and P.-J. Hatt

145 Sex and a snail's sperm: on the transport, storage and fate of dimorphic sperm in Littorinidae
J. Buckland-Nicks, I. Bryson, L. Hart and V. Partridge

153 Switching from asexual to sexual reproduction in the planarian *Dugesia ryukyuensis*
K. Kobayashi, R. Koyanagi, M. Matsumoto and M. Hoshi

159 Ultrastructure of spermathecal epithelium of *Ctenolepisma longicaudata* (Insecta: Thysanura)
S. Palit and S.G. Pal

163 The scheduling of spawning with the moult cycle in Northern krill (Crustacea: Euphausiacea): a strategy for allocating lipids to reproduction
J. Cuzin-Roudy, E. Albessard, P. Virtue and P. Mayzaud

Maternal impact on early development

171 Maternal impact on egg development in *Lymnaea stagnalis*: a growth factor is produced by the albumen gland in the reproductive tract
G.T. Nagle, D.B.G. Akalal and S.D. Painter

175 Regulation of M-phase promoting factor (MPF) in *Nereis virens* oocytes during meiotic maturation
L.A. Paterson, L. Meijer and M.G. Bentley

Sex determination and signalling between partners

183 Sex pheromones in *Nereis succinea*
C.T. Müller, M. Beckmann and J.D. Hardege

187 Indirect sperm transfer and male mating strategies in soil invertebrates
E. Stam and G. Hoogendoorn

191 Attractin, a water-borne peptide pheromone in *Aplysia*
S.D. Painter, B. Clough, D.B.G. Aklalal and G.T. Nagle

Evolutionary implications of developmental patterns

195 Oogenic strategies in the evolution of development in *Patiriella* (Echinodermata: Asteroidea)
M. Byrne, A. Cerra and J.T. Villinski

203 Comparative molecular embryology of arthropods: the expression of Hox genes in the spider *Cupiennius salei*
W.G.M. Damen and D. Tautz

211 The development of the musculature in the limpet *Patella* with implications on its role in the process of ontogenetic torsion
A. Wanninger, B. Ruthensteiner, W.J.A.G. Dictus and G. Haszprunar

Influence of pathogens on reproduction

217 The effects of infection with *Plasmodium yoelii nigeriensis* on the reproductive fitness of the mosquito *Anopheles gambiae*
A.M. Ahmed, R.D. Maingon, P.J. Taylor and H. Hurd

223 Inhibition of the development of the reproductive tract in parasitized snails
M. de Jong-Brink, B. Van Der Wal, X.E. Op de Laak and M.J.M. Bergamin-Sassen
